

Born from our relentless pursuit of durability and precision, the Phoenix XL represents the very latest in plastic-based matrix technology - combining cutting-edge raw materials, advanced adhesives, and refined engineering to deliver an uncompromising creasing solution.

Designed to meet the ever-increasing demands of high-volume production runs, the Phoenix XL minimises machinery downtime, keeping your operation running efficiently and saving you both time and money.

- New High Quality Adhesive. No need for cleaning the platen , with an additional strong tape option available, ideal for hot or humid conditions..
- No Lead Edge Taping Required - Secure, reliable performance straight out of the box.
- Choice of Base Size - Available in 12mm or 15mm base to suit your production requirements, supporting channels up to 3.2mm on 12mm and up to 3.5mm on 15mm.
- Specially Designed Self-Locating Locators - Seats precisely and securely in the channel every time.
- High-Impact Polymer Plastic - Utilising the very latest in polymer technology for exceptional durability.
- Improved Shoulder Slope Profile - Engineered to eliminate witness marks, ensuring a clean, flawless finish on high-speed machines.
- Colour-Coded for Easy Identification - Height coding printed on both the base and locator for fast, accurate selection.

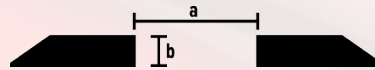

Phoenix XL Size Chart 12mm Standard Centre

	Blue Height 0.40mm	Channel Width 1.3, 1.4, 1.5, 1.6, and 1.7mm
	Red Height 0.50mm	Channel Width 1.3, 1.4, 1.5, 1.6, 1.7, and 1.9mm
	Yellow Height 0.60mm	Channel Width 1.5, 1.6, 1.7, 1.9, 2.1, 2.3, 2.5, 2.7, 3.0, and 3.2mm
	Orange Height 0.70mm	Channel Width 2.1, 2.3, 2.5, 2.7, 3.0, and 3.2mm
	Green Height 0.80mm	Channel Width 2.1, 2.3, 2.5, 2.7, 3.0, and 3.2mm
	Sky Height 1.00mm	Channel Width 2.1, 2.3, 2.5, 2.7, 3.0, and 3.2mm
